- ✓ **Tools:** Git, VS Code, Android Studio
- ✓ **Web:** REST API, GraphQL, WebSocket
- ✓ **DevOps:** Docker, Kubernetes
- ✓ **CI/CD:** Github Actions
- ✓ **Cloud Platform:** AWS
- ✓ **System:** Windows, Linux

EDUCATION

Bachelor of Computer & Electronic Systems Engineering

University of Science & Technology, Sudan
2012 - 2017

LANGUAGES

Arabic: Native

English: Intermediate

WORK EXPERIENCE

Software Developer
Freelance | 2017 - Present

During past 5 years I have created +10 web and and Android apps for clients, nonprofit organization, and for my own benefit of learning.

- Code architect: Crafting solutions from scratch.
- Problem solver: Debugging and fixing client issues.
- Client navigator: Building relationships and managing projects.
- Self-starter: Finding work, setting schedules, and staying motivated.

Electronic Systems Engineer
EDTS SAL (of Shore) Company | 2019 - 2020

POS engineer (1 year) masters hardware/software integration, ensures reliable performance, and drives client-focused solutions through strong teamwork.

- Hardware Selection and Integration.
- Software Development and Testing.
- System Design and Implementation.
- Technical Support and Troubleshooting.

Teaching Assistance
University of Science & Technology | 2017 - 2019

Guided computer engineering students with clear communication, fostering positive learning and smooth lab operations.

- Instructed and guided students.
- Maintained lab environment.
- Evaluated student work.
- Contributed to course development.
